VIEWR

WHERE EVERY WATCH COUNTS

By Josep and Abraham

Welcome to Viewr!

Viewr is your ultimate destination for discovering, exploring, and celebrating the world of movies and television. Whether you're a cinephile, TV enthusiast, or casual viewer, Viewr offers a comprehensive platform to satisfy your entertainment cravings.

Our team

Viewr is developed and maintained by a
passionate team of movie buffs, television
aficionados, and technology enthusiasts. We
are dedicated to delivering an exceptional user
experience and continuously improving our
platform to meet the evolving needs of our
community.

The problem

Movie and TV fans are looking for places where they can share their opinions, recommend and be recommended. They want to discover the latest movie releases, read what other users think of a movie before deciding whether to watch it, and have a large database of information about the content they are interested in. Viewr provides a solution to these needs.

The solution

Viewr is a cutting-edge web application meticulously crafted to tackle the challenge of accessing the latest and most comprehensive database effortlessly. Designed with simplicity and intuitiveness in mind, Viewr sets a new standard for user-friendly interfaces, ensuring seamless navigation and unparalleled ease of use.

The product

Main features:

- Access to the world's most comprehensive database.
- Dedicated search engine for specific title searches.
- Alphabetical filtering for browsing through all series.
- Commenting feature for sharing impressions.
- Ability to edit and delete comments.
- Latest comments feed for staying updated.

"Viewr: Where every watch counts. Explore, engage, and experience the ultimate in intuitive viewing."
